PathumLakshan PathumLakshan

SUMMARY

A passionate Junior Full-Stack Developer with hands-on experience in Laravel, Python, and Java. Eager to apply my skills in both backend and frontend development to build efficient, scalable, and user-friendly applications. Committed to continuous learning and contributing to a collaborative development team in a growth-focused company.

WORK EXPERIENCE

Junior Full-stack Developer , Jaan Network (Pvt) Ltd — Mar 2025 - Present

Hybrid POS System with Offline Sync (Flask, MySQL)

- Developed a multifunctional Point-of-Sale system with supplier management, batch tracking, sales reporting, and returns.
- Implemented an offline-first design using local MySQL with automatic synchronization, ensuring uninterrupted transactions during connectivity issues.
- Impact: Reduced transaction downtime to near-zero and improved cross-branch data integrity.

Transport Booking & Management Platform (Vue.js + Laravel)

- Contributed to a full-stack booking system for trains, buses, and flights, integrating third-party APIs for real-time schedules and fares.
- Built client dashboards for booking management and super-admin portals with role-based authentication.
- Impact: Streamlined vendor verification and booking processes, improving operational efficiency by 25%.

Wise Banking System (Laravel + React)

- Developed secure banking features including account registration, verification, money transfers, and real-time currency rate integration.
- Implemented user tracking and activity monitoring to enhance fraud detection and compliance.
- Impact: Improved system reliability and security, leading to a 30% reduction in transaction errors and faster customer onboarding.

Intern Full-stack Developer, Heaven’s Code Negambo — Aug 2024 - Feb 2025

Order Tracking System (AngularJS + Laravel)

- Order Tracking System (AngularJS + Laravel): Built a real-time order tracking platform with live status updates, improving client transparency and reducing support queries.
- Restaurant Website (HTML, Bootstrap, JavaScript): Designed a responsive website with interactive menus and galleries, enhancing customer engagement and increasing online reservations.

EDUCATION

BSc. (Hons) in Computer Science [2022 - Present]
Saegis campus Nugegoda
CGPA - 3.72
G.C.E Advanced Level [2020]
WP/KE Karunarathne Buddhist National College,Maththumagala,Ragama
G.C.E Ordinary Level [2017]
WP/KE Sri Pemananda Maha Vidyalaya, Kadawatha

PROJECTS

NLP Sentiment Analysis Model (2025)
Built a **natural language processing** model to classify tweets as **positive or negative**, using **NLTK**, **pandas**, **NumPy**, and **matplotlib**. Implemented text preprocessing with **tokenization**, **stemming**, and **stop-word** removal, followed by a **regression-based** classifier.

Django Rest Application – 2025
Developed a Student Management **REST API** using **Python**, **Django**, and **Djoser** for secure authentication and **CRUD** operations on student records.

Fingerprint Based Attendance System (2025)
Developed a real-time **fingerprint attendance system** on a **Linux** server using **Raspberry Pi** and **Arduino**, with a web interface built in **HTML/CSS/JavaScript** and **HTTP** requests for instant updates.

Real-Time Chat App (2024)
Built a Flask-based **chat application** with **Socket.IO** for real-time messaging, supporting text, images, voice recordings, music, and PDF sharing using HTML, CSS, and JavaScript.

Weather App (2023)
Created a **desktop weather application** with **Python Tkinter** that fetches real-time weather data via API and displays temperatures in Celsius or Fahrenheit based on city search.

GPA Calculator App (2023)
Developed a mobile **GPA calculation app** using **React Native**, allowing students to input course grades and credits to instantly compute and track their GPA.

CERTIFICATION OF IT RELATED

- Winner of the **Hackathon** at Saegis campus – [2024]
- Certified **Django Rest Framework** - **META** - [**Coursera**, 2025]
- Certified **Machine Learning Specialization DeepLearning AI** - [**Coursera**, 2025]
- Certified **Laravel Basic to Advance** - [**Udemy**, 2024]
- Certified **PostgreSQL Basic to Advance** - [**Udemy**, 2023]

ADDITIONAL INFORMATION

- **Programming Languages :** Python, Java, C, C++, PHP, JavaScript, Arduino
- **Frameworks:** Flask, Django, Laravel, ReactJs, NodeJs, ExpressJs, AngularJs, Yii2, ReactNative
- **Databases:** MySQL, PostgreSQL, MongoDB
- **Version Control:** Git, GitHub, AzureGit
- **Project Management:** Jira, Trackerwork
